

TLI31210**Certificate III in Driving Operations****Driving Operations****Who is this course for?**

The Certificate III in Driving Operations is intended for people who want to acquire the skills and knowledge needed to work in the road transport industry.

It contributes to requirements for employment in advanced operations positions in the road transport sector, including the transportation of dangerous goods.

**Licensing, Legislative, Regulatory Considerations**

The transport and logistics industry is tightly regulated by a range of regulations, licence arrangements and codes of practice which pertain to many different aspects of operations including safety, health, hygiene, security, anti-discrimination, equal employment opportunity, quarantine, and customs and immigration.

Examples of regulations relevant to various standards include but are not limited to:

- relevant state/territory roads and traffic authority driving regulations and licence/permit requirements including mass and loading regulations and state/territory oversize/mass pilot/escort permit requirement
- fatigue management regulations and codes of practice
- relevant state/territory road rules

This certificate is for:

- road freight drivers - people who assemble, load, secure and unload medium rigid and heavy rigid vehicles; transport goods and materials; and perform routine vehicle inspections and maintenance. Specialities might include dangerous goods, tow truck, furniture, specialist freight, food delivery.

Participants will learn how to drive a range of vehicles, handle cargo/stock, maintain a vehicle, carry out a range of duties in a warehouse and deliver goods. They will also learn about occupational health and safety, dangerous goods, route planning and navigation.

What qualifications do trainees receive upon completion of the traineeship?

Participants receive a nationally recognised, competency-based qualification developed by industry as a benchmark for recruitment and training.

Certificate outcomes for Driving Operations Traineeships are:

- TLI31210 Certificate III in Driving Operations (Heavy General Freight)
- TLI31210 Certificate III in Driving Operations (Dangerous Goods)

As part of the Australian Qualifications Framework this qualification is nationally recognised by industry and other training providers.

Can a trainee gain license?

Yes, Training Services 4 You is able to incorporate licensing as part of the traineeship, which can also be subsidised through the Australian Apprenticeships Incentives scheme:

The types of licensing available include:

- Dangerous Goods
- LR Light Rigid
- MR Medium Rigid
- HR Heavy Rigid
- HC Heavy Combination
- MC Multi-Combination

Drivers will be trained & assessed against the RMS competency standards by our RMS accredited assessors. After the required standard of competency has been achieved the RMS will issue the appropriate licence.

Conditions apply.

What is required in this Qualification?

A total of 18 - 20 units of competency are required to complete this qualification, consisting of six (6) Core Units, one licensing or industry unit, all units within one of the selected group (job roles), as listed below and six (6) Elective Units.

Available Job Roles:

- Heavy General Freight
- Dangerous Goods

A large range of units relevant to the Road and Transport industry are on offer to cover the diversity of the industry.

Certificate III in Driving Operations has a 24-month nominal term for a full time employee. Part-time employees (greater than 21 hours per week) can undertake this course with an increased term.

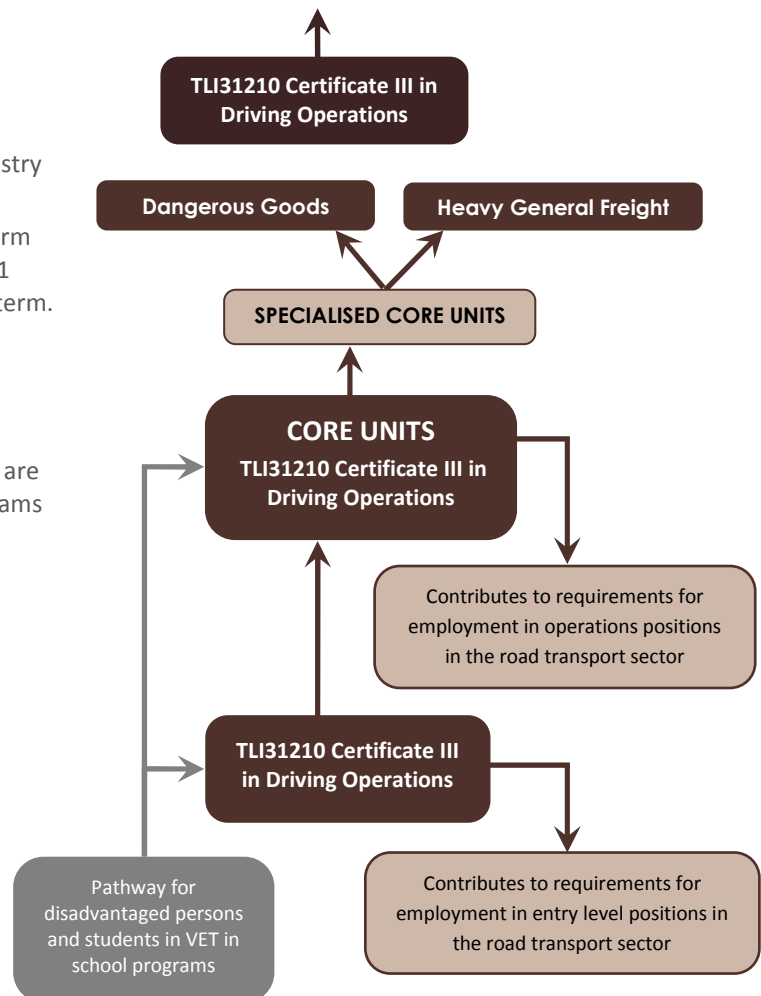

Qualification Structure

The Transport and Logistics Training Package has designated streams that each unit of competency fits into. These streams are based on the skills and tasks required to be assessed. The streams applicable to this qualification are as follows:

- Handling Stock/Cargo
- Equipment Checking and Maintenance
- Driving Vehicles
- Load Handling
- Documentation and Calculations
- Occupational Health and Safety
- Route Planning and Navigation
- Customer Service and Quality
